

MOHTASHIM MAAZ

Full Stack Developer | Node.js | React.js | Laravel | MongoDB | MySQL | PostgreSQL

Aurangabad, Maharashtra, India | +91 9637997690 | mohteshim3276@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Full Stack Developer with around 2 years of experience building web applications using React.js, Node.js, Express.js, Laravel, PHP, MySQL, and MongoDB. Experienced in developing REST APIs, responsive user interfaces, admin panels, WordPress websites, Shopify customizations, and client-focused business applications. Also built personal projects involving AI integration, PDF-based learning, authentication, and full-stack product development.

TECHNICAL SKILLS

Frontend: React.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Design

Backend: Node.js, Express.js, Laravel, PHP, CodeIgniter, REST APIs, JWT Authentication

Databases: MySQL, MongoDB, PostgreSQL, Supabase, Redis

CMS & eCommerce: WordPress, Shopify, WooCommerce, Plugin Customization

Tools: Git, GitHub, Docker, AWS, Postman, VS Code, Render, Vercel

AI & APIs: Groq AI, HuggingFace Embeddings, RAG, YouTube Data API, Third-party API Integration

PROFESSIONAL EXPERIENCE

Jamsfa Group

Nov 2025 – May 2026

Full Stack Developer

React.js, Node.js, Laravel, PHP, WordPress, Shopify, MySQL, MongoDB

- Developed and maintained full-stack web applications using React.js, Node.js, Laravel, PHP, MySQL, and MongoDB.
- Built REST APIs for client applications and integrated them with frontend interfaces.
- Worked on WordPress websites, including theme customization, plugin changes, and performance improvements.
- Handled Shopify store customizations including product pages, theme updates, and basic app integrations.
- Created responsive user interfaces and fixed frontend issues across desktop and mobile screens.
- Worked directly on client requirements, bug fixes, feature updates, and deployment-related tasks.

Full Stack Developer

PHP, Laravel, CodeIgniter, React.js, Node.js, WordPress, MySQL, MongoDB

- Built and maintained web applications using PHP, Laravel, CodeIgniter, React.js, and Node.js.
- Developed backend APIs for forms, dashboards, authentication, and business workflows.
- Created admin panels and database-driven modules using MySQL and MongoDB.
- Customized WordPress websites based on client requirements, including layouts, forms, and plugin-level changes.
- Integrated third-party APIs and payment/shipping-related services where required.
- Collaborated with designers and team members to deliver client projects within deadlines.

PROJECTS

Revise AI**Personal Project****AI-Powered Learning Platform**

React.js, TypeScript, Node.js, Express.js, MongoDB, Groq AI, HuggingFace, YouTube Data API

- Built a full-stack learning platform where users can upload PDFs and generate AI-based quizzes.
- Implemented PDF-based chat using RAG concepts, embeddings, and Groq AI integration.
- Created backend APIs for PDF upload, quiz generation, AI chat, progress tracking, and video recommendations.
- Integrated YouTube Data API to suggest relevant learning videos based on uploaded content.

School ERP System**Personal Project****Backend-Focused SaaS Project**

NestJS, PostgreSQL, TypeORM, Docker, JWT, Role-Based Access Control

- Developing a school ERP backend for managing students, teachers, classes, subjects, attendance, exams, and fees.
- Designed PostgreSQL tables and relationships for academic sessions, users, classes, sections, and student records.
- Implemented authentication and role-based access for admin, teacher, student, and parent users.
- Used Docker for local PostgreSQL setup and database development workflow.

EDUCATION

Bachelor of Computer Applications (BCA)

Dr. Babasaheb Ambedkar Marathwada University, Aurangabad

CGPA: 7.0 / 10.0
